

Product.

Grounding Kits RO1, 1/2" , 7/8"

Prod No.

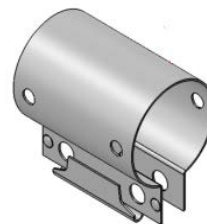

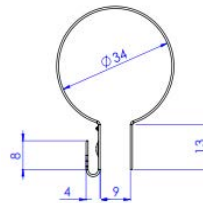

FC-GK-12-RO1 ,FC-GK-78-RO1

Application and Properties:

- Grounding kits provide excellent protection for base station equipment by preventing damage cable and radio equipment from lightning current and transmission line to an earth grounding system.

- Other Details

- Quality of the product is tested according to IEC Standards.
- High reliability and safety
- Fast and easy installation
- The unique integration design and built-in insulation penetration and sealant provide excellent mechanical and electrical properties to the grounding kits

- Technical Specification

Standards	IEC 61643, IEC 60529, ISO 2768-m, IEC 61024-1	
According to		
Materials		
Grounding strap	Grounding strap SUS304	Stainless steel
Wrap rubber	Wrap rubber	Santoprene 40
Grounding wire 16mm <sup>2</sup>	Conductor Jacket ( FRNC	Copper wire Black, PE black,
Lug	Universal lug1, universal lug plated	Copper, Tin-
Accessories	Hex bolt, hex nut SUS304 flat washer, lock washer	Stainless steel
Notes: FRNC stands for Flame-retardant and halogen free jacket of	the cable. Connector lug Tin thickness>=5um	
Environmental data		
Temperature	-40°C to +70°C	
Degree of waterproof	IEC 60529, IP67	
Packing		
Standard	pce in bag, 50pcs. per box 1	
Weight	220 g/pce
