

- Information

Product.

Grounding Kits RO2,1/2" , 7/8"

Prod No.

FC-GK-12-RO2 ,FC-GK-78-RO2

Application and Properties:

- Grounding kits provide excellent protection for base station equipment by preventing damage cable and radio equipment from lightning current and transmission line to an earth grounding system.

- Other Details

- Quality of the product is tested according to IEC Standards.
- High reliability and safety
- Fast and easy installation
- The unique integration design and built-in insulation penetration and sealant provide excellent mechanical and electrical properties to the grounding kits
